April

I have done a quick once over and have a question. The report mentions the background data that was collected for the metals and I have looked and have not found a table that contains the data used to calculate the background numbers being used in the report. I would like to have the data included and would suggest that it be presented as a results with statistics Table 18 and raw data Appendix A-2. I have not forwarded the document to the Risk Assessor yet and will be doing so after I send this email.

Thanks

Dear Mr. Mueller,

Attached is the Screening Level Ecological Risk Assessment for AOC-4, Revision 01 in association with the Falcon Refinery Superfund Site Project (Task Order 0088-RICO-06MC). Two hard copies and one electronic copy on compact disk are being shipped to the EPA mailroom. Included in this submittal is a document titled *Comprehensive Response to Comments on Screening Level Ecological Risk Assessment AOC-4, Falcon Refinery Superfund Site*. I am submitting this deliverable on behalf of Mr. Bob Owens who is currently out of the office on medical leave.

Please let me know if you have any questions or comments.

Sincerely,
April
